Powerful-Latinas.com is a company that is all about “***Latina women working together in an evolving Latino culture to create a better world.***”

The company offers online programs and services to meet this goal, such as webinars, videos, an interview series, and informational products and services. The idea is to share courage, strength and wisdom among Latina women through our stories.

The company started with an interview series, and to date, there are nearly 70 interviews of amazing Latina women offered on the website.

In addition to a community of women that interact with each other online – such as through the PowerfulLatinas Facebook group or via comments on the website postings – there are a number of contributing bloggers to the site on topics as diverse as health, money, jobs, writing, myth and culture, and Latino sexuality.

Check out the most recent blog posts at: www.PowerfulLatinas.com/blog and all are welcome to sign up for the semi-weekly newsletter on the homepage at www.PowerfulLatinas.com

The Latina Personal Power Program was developed to compile the wisdom from the dozens of interviews and offer women a practical way to implement these lessons in their lives.

The program takes one key POWER IDEA each month and unpacks the concept, sharing inspirational quotes from interviewees, and urging participants to ask the right questions unique to them so they can figure out how this power can infuse their daily lives.

The 3 P's of Leadership: Passion, Preparation and Perseverance

Great leaders pursue activities that truly move them, for which they have a deep internal drive and spark, and something they believe about strongly. This *passion* is a flame that energizes leaders when their attention is flagging or when they encounter obstacles.

Similarly, great leaders also prepare and plan to ensure they accomplish their goals for the best possible outcome.

Finally, when there are roadblocks, stumbles or even brick walls, true leaders know that part of the journey is continuing forward in spite of these problems.

Learn from the guidance of Latina leaders how to use these three Ps (passion, preparation and perseverance) in your own life!
